Beverly Hills Water Tracker Announcement

Help Conserve Water by Turning off Irrigation

August showers are coming. Let nature do the watering and turn off your irrigation system. The rain will saturate deep in the soil. You can leave your sprinklers off for at least 1-2 weeks after rain stops.

Also please consider doing the following:

1. Moving items you don't want to get wet.
2. Cover your outdoor furniture and clean critical sections of your rain gutter.
