

## **ARGUMENT IN FAVOR OF MEASURE BH**

### **MEASURE BH MAKES PROTECTING STUDENTS A TOP PRIORITY**

#### **MEASURE BH WILL:**

- Enhance safety and security at all five school sites to include earthquake/seismic retrofitting, lighting, fencing, windows, locks, cameras, fire and life safety systems, alarms and sprinkler systems.
- Beverly Hills High School: modernization of K.L. Peters auditorium, Salter Theater, choir, music room and classroom buildings. New gymnasium and athletic facility, outdoor aquatic center, football/soccer field, lacrosse, baseball and softball fields, and oil well site remediation.
- El Rodeo School: modernization of classrooms, library, technology labs, sports fields, play courts and new parking structure.
- Horace Mann School: chiller replacement and Building A roofing.
- Hawthorne School: modernization of auditorium.
- Beverly Vista School: student drop-off and site improvements.
- Equip classrooms with educational technology, secure online access, computer and science labs to support quality learning.
- Maintain flexibility for future reconfiguration of our schools.
- Upgrade all schools to improve ADA accessibility.

#### **MEASURE BH IS A FISCALLY RESPONSIBLE APPROACH**

Measure BH utilizes fiscally conservative financing and tough taxpayer accountability directed to specific construction projects at all five BHUSD schools. No funds are allowed for administrator and teacher salaries, pensions or legal expenses related to Metro litigation. Independent Citizens' Oversight, mandatory audits and public reports will ensure funds are spent only on projects itemized in the ballot measure.

#### **OUR KIDS CAN'T WAIT ANY LONGER**

Whether or not you have school-age children, safeguarding our students and the local quality of public education is a smart investment. Exceptional public schools protect our property values and keep our community strong.
