TOWN HALL MEETINGS SET ON PROPOSED WATER AND WASTEWATER RATE ADJUSTMENTS

Beverly Hills, CA – The City of Beverly Hills will conduct several Town Hall meetings to discuss the proposed water and wastewater rate adjustments that will work to restructure, protect and stabilize the City’s water system and services.

Based on a recent cost of service analysis, restructuring will help to ensure customers pay the appropriate amount for their water use.

On February 20, 2024, the Beverly Hills City Council will hold a public hearing to consider the proposed rate adjustments. If adopted, the proposed rate adjustments for the wastewater charge and the water reliability charge will take effect on July 1, 2024.

“It’s important that we continue to invest in our water and wastewater infrastructure,” said Shana Epstein, Director of Public Works. “These proposed rate increases help promote greater water independence so we can utilize our local resources, upgrade our water and wastewater pipelines and offset inflation.”

Notices were sent to Beverly Hills residents outlining the proposed cost changes. To view the notice, visit beverlyhills.org/waterrates.
